Summary

Python | Javascript | React | Angular | Nodejs

I juggle my time across them.

Hi, I'm Sinan!

I'm a highly skilled computer science graduate with expertise in Python, JavaScript, TypeScript, and Java programming languages. My strong background includes working with cutting-edge technologies such as ReactJS and AngularJS for frontend development, alongside Node.js and Express for backend development. I'm not just a coder; I bring a keen eye for UI design to the table and am proficient in creating prototypes using Figma.

In my journey, I've successfully completed two major projects using React and two intermediate ones in Angular, integrating Node.js and Express for the backend in both cases. My experience showcases a track record of delivering exceptional results in the field of software development.

Beyond technical prowess, I have a passion for research and innovation. I presented a research paper at the prestigious International Conference on Intelligent Technologies in Computer Science and Engineering (ITCES) 2023.

Feel free to drop a DM if any of our interests align/you have an interesting project to work on!

Have a look at my coding works:

Experience

Software Engineer Trainee

ThinkPalm Technologies Pvt. Ltd.

Aug 2023 - Present (6 months)

Led the development of a robust e-commerce application utilizing Angular and Node.js, demonstrating expertise in these technologies

Implemented efficient API calls for a demo project and e-commerce website, ensuring seamless communication between the frontend and backend systems

Exhibited a strong commitment to continuous learning by extensively studying the core concepts of Angular and Node.js, fostering a deep proficiency in these technologies.

Web Development Intern

O(1) Coding Club

Jul 2023 - Aug 2023 (2 months)

Learned about the basics of web development. Used React for frontend development and build a project at the end of internship as task. Utilizes Nodejs for backend and MongoDB as a database. Also learned basics of server side services, components rendering, props handling .

Education

Government Engineering College Wayanad

Bachelor of Technology - BTech, Computer Science

2019 - 2023

Higher secondary studies Biology

Aug 2017 - Mar 2019

High school

May 2014 - Mar 2015

Licenses & Certifications

Foundations of User Experience design - Google

The Front end developer bootcamp- Html Css Bootstrap and React - Udemy

UC-7338020a-d14d-4432-9816-b4c3f3dae20f

Javascript - Basics to Advanced - Udemy

UC-894634aa-01a9-44be-8c80-f77cfa9a637b

Skills

Application Programming Interfaces (API) • AngularJS • TypeScript • Express.js • Node.js •
JavaScript Libraries • Next.js • SQL • Object-Oriented Programming (OOP) • Object Oriented Design
